## Education

Madhuben And BhanuBhai Institute Of Technology, Anand

B.Tech - Computer Science and Engineering

• CGPA: 8.97

2022–2026

Anand, Gujarat

## Technical Skills

- HTML, CSS, OOP Concepts
- Java, JavaScript, Python (NumPy, Pandas)
- Node.js, Express.js, Next.js
- SQL Server, MongoDB

## Experience

Generative AI Intern at Flaunch

Sep 2024 – Nov 2024

Remote

- Developed a **Smart Recipe Generator** using Streamlit, TheMealDB API, and the **Llama Model**, generating personalized recipes and meal plans.
- Created the **YouTube Summarizer** using **LangChain** and **LLaMA Model**, providing concise summaries of video content.
- Developed the **Interactive History Tutor and Quiz Generator** app using Streamlit and HuggingFace, leveraging **LLaMA** model.

## Projects

Recipe Generator and Meal Planner | *Python, Streamlit*

- Used the MealDB API to fetch recipe data
- Integrated a database for storing user preferences and generating customized meal plans

AI Interview Simulation App | *Next.js, React, Drizzle ORM, Gemini AI, Clerk*

- Built a full-stack platform that simulates real interview experiences with rounds like Aptitude, Technical, GD, and HR.
- Integrated Gemini AI to generate dynamic questions, assess answers, and provide real-time feedback.
- Implemented secure authentication using Clerk and managed relational data using Drizzle ORM.
- Enhanced UI/UX with React and TailwindCSS, offering a seamless, interactive experience.

Uber Clone (Ride Booking App) | *MERN Stack - MongoDB, Express.js, React.js, Node.js, Next.js*

- Developed a full-stack ride-booking platform enabling users to book rides, track drivers, and view trip history.
- Implemented real-time ride requests, live location tracking, fare calculation, and user authentication.
- Used MongoDB to manage users, drivers, and trip data while Express.js and Node.js powered the backend.

## Technical Expertise

**Languages:** Python, Java, JavaScript, SQL, MySQL, MongoDB

**Technologies/Frameworks:** HTML5, CSS3, Node.js, Express.js

**Developer Tools:** VS Code, Git/GitHub, IntelliJ, Canva

## Certifications

- Core Java — LearnQuest
- SQL — University of Michigan

## Achievements & Activities

- Achieved 1st rank in a drawing competition
- Participated in Hackathon
